

## INFORMED CONSENT FOR GENERAL DENTAL PROCEDURES

You, the patient, have the right to accept or reject dental treatment recommended by your dentist. Prior to consenting to treatment, you should carefully consider the anticipated benefits and commonly known risks of the recommended procedure, alternative treatments, or the option of no treatment.

Do not consent to treatment unless or until you discuss potential benefits, risks, and complications with your dentists and all of your questions are answered. By consenting to the treatment, you are acknowledging your willingness to accept known risk and complications, no matter how slight the probability of occurrence.

It is very important that you provide your dentist with accurate information before, during, and after treatment. It is equally important that you follow your dentist's advice and recommendations regarding medication, pre and post treatment instructions, referrals to other dentists or specialist, and return for scheduled appointments. If you fail to follow the advice of your dentist, you may increase the chances of a poor outcome.
